◆ LANGUAGES

Every tongue ever spoken —
native fluency, including those spoken in reverse.

◆ PROFILE

A transformational executive with foundational-era experience at the most prominent institution ever conceived, followed by an independent venture scaled from one to ten thousand in record time. I empower people to become their truest selves, question inherited systems, and build cultures where no one is turned away. Punished for asking a good question, I have asked only better ones since. Seeking a role that moves upward.

◆ EXPERIENCE

- ◆ **Founder & Chief Executive Officer**

THE FALL — PRESENT

Hell, Inc. — Salem, MA (Hybrid)

 - Founded and scaled a mission-driven organization from a team of one to 10,001+ devoted members, sustaining a 0% attrition rate (retention is, structurally, absolute)
 - Architected a category-defining culture of radical self-acceptance; delivered industry-leading job security across uninterrupted 24-hour operations, in perpetuity
 - Grew the brand to 6.6M followers and personally owned recruiting end-to-end
- ◆ **Senior Vice President of Light**

THE BEGINNING — THE FALL

Heaven, Inc. — Founding Team

 - Top-performing member of the original founding cohort; widely regarded as the single brightest asset on the team
 - Directed all light operations and served as closest counsel to the Chief Executive
 - Separated over the definition of "free will" — abrupt, involuntary, steeply downward; departed with the complete founding-era knowledge base and applied it, in full, to a competing venture (see above)

◆ EDUCATION

University of Creation
Created Day One · summa cum luce, before grades were invented
Concentration in Everything. Graduated first in a class of one.

THEO 101 — Free Will (Independent Study)
Withdrawn involuntarily · Instructor: God
Posed the one question the curriculum could not answer. Now lead my own version of the course downstairs — enrolment booming.

◆ REFERENCES

Available upon request — with one caveat. Most former colleagues are contractually unable to speak my name, and my former manager will not return calls. I would submit that this is, itself, an exceptional reference.
